This is the landing page for the SENDIG-DART. In this space you will find:

- **Read the SENDIG-DART**
  - SENDIG-DART v1.2 - Sections — Individual sections of the SENDIG-DART are displayed each as their own page. If you wish to jump to a specific section, a table of contents is provided on the sections top page.
  - Proof of Concept (POC) materials are included to demonstrate examples of intended structure and content of SENDIG-DART v1.2 data.

- **Look at a specific kind of content**
  - SENDIG-DART Specifications — Page for domain/dataset specification tables included in the SENDIG-DART.
  - SENDIG-DART Assumptions — Page for domain-level assumption sets included in the SENDIG-DART.
  - SENDIG-DART Examples — Page where all of the examples developed for the SENDIG-DART live.

- **Provide feedback on SENDIG-DART**
  - Instructions for Reviewers — Detailed instructions for how to use JIRA to provide feedback on the SENDIG-DART v1.2 are given here.

- **Read and provide feedback on the associated Conformance Rules for this release**
  - SEND Conformance Rules v5.0 Home - Please read the Instructions for Reviewers of Rules at this page to learn how to provide feedback on this rules catalog

- **Other resources you may find helpful:**
  - Reading on the Wiki — This page touches on some of the ways the Wiki edition of the SENDIG has been optimized for web use, with which a reader new to the CDISC Wiki may be unfamiliar.

Comments on the SENDIG-DART v1.2 should be entered into JIRA at: https://jira.cdisc.org/projects/SENDCOMNTS, component "DART". For more detail, see the Instructions for Reviewers.
