You will need to log in or register for the CDISC Wiki to access documents and provide comments.

- To register for the Wiki: Register. JIRA and Wiki use the same login, please create only one account. CDISC Wiki is a different login from www.cdisc.org.

If you have no edits or comments to a page:

1. Click ‘Like’ at the bottom of the page. This will help us determine who has read each page.

To add comments to JIRA from within the Wiki:

1. Select the text to which you wish to attach the comment. After a moment, a small contextual menu should appear. If the text you have selected is not unique on the page, or contains any links or images, the JIRA Connector will be unable to find the right place to automatically insert the issue upon creation. In most cases, five words of plain text should be enough to ensure a unique text string, but this is not guaranteed. Depending on your browser, the JIRA Connector may also experience difficulties if the content to which you wish to add the issue is mirrored from another page. Reviewers are recommended to enter comments on the content’s source page whenever feasible. This method only works for text and content rendered on the wiki page(s). Comments on files attached to the document must be entered manually in Jira. Please reference the file and location within when creating your issue. See "To add comments from within JIRA" below.

2. Within the contextual menu, click on the icon with the 3 arrows. This will trigger an abbreviated Create Issue form.

3. Check to make sure the project selected (the first part of the first line under the title of the form) is "ADQRS". If it isn’t, click on "Edit" on the same line to convert the line into two drop-down menus.
   a. Choose "ADQRS" from the first drop-down menu.
   b. Add the Component - "NEWS2"

4. Fill out the form and click the "Create" button in the bottom right corner of the form to submit your comment as an issue.

Instructions for creating an issue from within Confluence (the Wiki) can be found here: https://confluence.atlassian.com/doc-use-jira-applications-and-confluence-together.html

To add comments from within JIRA:

1. Go to the "ADQRS" project in JIRA at: https://jira.cdisc.org/projects/ADQRS

Keeping JIRA open in a separate window to capture comments is easier than navigating back and forth between the Wiki and JIRA.

2. Click on the “Create” button in the top menu to bring up the Create Issue form.

3. Make sure the project is set to "ADQRS" and the issue type is set to “Review Comments”.

4. Add the Component - "NEWS2"

5. Fill out the form. a. In the Summary field, describe the content to which the comment applies.
   b. Enter your comment, and any additional details, in the Description field. To help the team address your comment properly, be thorough.

Instructions for creating an issue can be found here: https://confluence.atlassian.com/display/JIRA/Creating+an+Issue
